

RCPCMB6 - Caroline Mall Bench

Material

The Caroline Mall bench is made of 1.5" OD 16 gauge powder coated steel with 2" x 3" recycled plastic (thermoplastic slats depending on desired order) planks for the bench seat and back. The recycled plastic slats are 72" long.

The Caroline is available in a surface mount option with pre-drilled holes in the feet to prevent movement as well as an in-ground mounting option. Mounting hardware is not included.

The recycled planks are made from at least 95% recycled materials and is Green Circle Certified. These planks are resistant to fading, sagging and splintering and will never need painting.

Powder Coated Steel Frame

Tubular components go through an extensive powder coating process adding additional protection making our steel frames highly resistant to rust.

Color

We offer a variety of color options. Visit website for more information.

Assembly

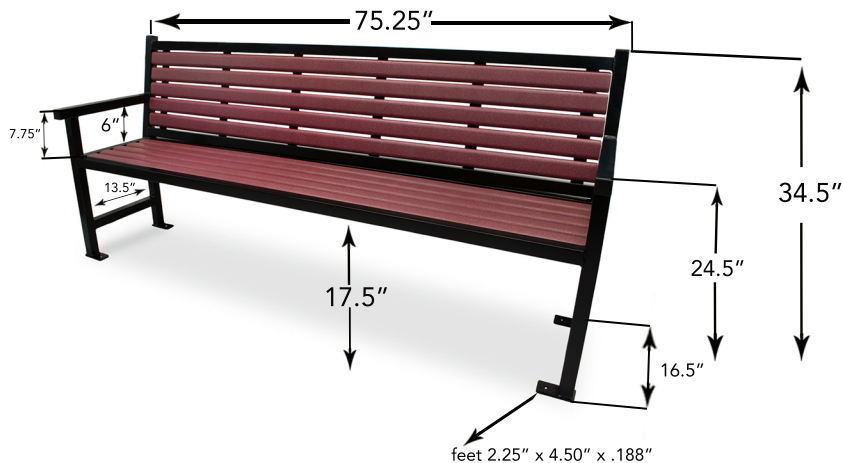

Hardware included. Some assembly required. (Optional pre-assembly if desired, call for more info.)

Warranty

All product warranties take effect at the date of purchase. All of our products are under warranty for 1 year, products with extended warranties will be listed on that specific product page. Should any failure occur within the warranty period, please notify us so we can resolve the issue promptly! Additional warranty information is available on our website.

Maintenance

The Caroline Mall Bench is essentially maintenance free. Cleaning is simple as wiping the product down with soap and water.
